

KITTERY CONSERVATION COMMISSION
MUNICIPAL BUILDING – CONFERENCE ROOM
MINUTES – SEPTEMBER 3, 2009

Present: Earldean Wells, Steve Hall, Jan Carson, Kelly Wilsey, Holly Elkins
Excused: Anne Borden, Don Moore

Kelly will contact from Bill Hills of the American Chestnut Foundation in regards to a very large Chestnut tree in Roger's Park... apparently it is an exceptional example. The Foundation notes locations of healthy, large trees for species preservation work.

We do not have old minutes to review at this time.

Rick Rossiter is retiring- the KCC would like to be sure our Town Farm Forest parking lot project is still a priority for the new director of public works.

Note: The Town Pound needs weeding and clearing

The Shoreland ordinance will need substantive changes... there will be two public hearings and a decision is at least two months out from now.

The Kittery Town Council took a straw vote and determined that animal waste bags, "poop cans" for bag disposal and pick up service to be provided for Roger's Park would not pass.

The granite bench for town farm Forest is still pending.

Coastal cleanup is still awaiting a final decision on the date.

KCC finalized discussions of Anne Borden taking over the chairperson position for Earldean while Earldean is away this winter. Details of this transition were discussed so all members present can be aware of protocols regarding agendas, minutes, mail and communication.

Respectfully submitted,
Holly Elkins

A handwritten signature in black ink, appearing to read "Holly M. Elkins", with a large, stylized flourish at the end.
